To whom it may concern,

The Student Senate opened an inquiry pursuant to Article V of the Association Constitution, which can be found under student resources at sga.appstate.edu, upon the (at the time) Student Body President Quson Brown and Student Body Vice-President Alejandro Barreto. The Student Senate having received the Rules Committee report and the defense of the individuals in question took action. The action the Student Senate chose to take was to remove Mr. Brown and Mr. Barreto from office and permanently disqualify them from holding future office. The vote was 22 senators in favor 2 against and 2 abstaining; meaning 91.66% of Senators voted in favor which satisfies the requirement of 2/3rds of the voting members voting in favor.

After this occurred, I, the Rules Committee Chair, received in writing, notification of permanent incapacitation arising from removal from office, from the (at the time) Student Senate President, Student Senate President Pro-Tempore, and myself. With the attestation of three of the required officers, the removal from office was certified, pursuant to Article VI, Section 5., D.

With the President and Vice President having been removed from their office Article VI, Section 5., A specifies that the Presidency falls to the Senate President, Gabriel M. Montalbano.

Gabriel M. Montalbano is the Acting Student Body President. There is no incumbent Student Body Vice President. Unless Gabriel Montalbano elects to take the oath of office, it shall fall to the Senate to provide for the selection of the next Student Body President and Student Body Vice President, per Article II, Section 2., C. 6.

Regards,
Hunter D. Clark
Chair of the Student Senate Committee on Rules
Chief Justice of the ASU-SGA
